The Census of 2010 has been released. It reveals demographic change throughout New York State. Pursuant to the United States Constitution and the New York State Constitution, congressional and state legislative districts must be reconfigured to reflect the population changes that have occurred.

The new congressional and state legislative districts must be consistent with the "one person, one vote" decisions of the United States Supreme Court. In addition, the new congressional and state legislative districts must be constructed in conformity with the Voting Rights Act. The Legislative Task Force on Demographic Research and Reapportionment wants to know how the public thinks the new congressional and state legislative districts should be configured.

Persons wishing to present pertinent testimony to the Task Force at the above hearings should complete and return the enclosed reply form as soon as possible or contact the Task Force at (212) 618-1100. It is important that the reply form be fully completed and returned so that persons may be notified in the event of emergency postponement or cancellation.

Oral testimony will be limited to 5 minutes' duration. In preparing the order of witnesses, the Task Force will attempt to accommodate individual requests to speak at particular times in view of special circumstances. These requests should be made on the attached reply form or communicated to Task Force staff as early as possible. In the absence of a request, witnesses will be scheduled in the order in which reply forms are postmarked.

Ten (10) copies of any prepared testimony should be submitted at the hearing registration desk. The Task Force would appreciate advance receipt of prepared statements. In order to further publicize these hearings, please inform interested parties and organizations of the Task Force's interest in hearing testimony from all sources.

In order to meet the needs of those who may have a disability, the Task Force, in accordance with its policy of nondiscrimination on the basis of disability, as well as the 1990 Americans with Disabilities Act (ADA), has made its facilities and services available to all individuals with disabilities. For individuals with disabilities, accommodations will be provided, upon reasonable request, to afford such individuals access and admission to legislative facilities and activities.
